

# A World Beneath Us

Experience 2:

Bodies of Water

**A World Beneath Us** is a sensory show made by Oily Cart that is sent to family's homes.

It's made of a sensory **box** and

a sensory **film**.

The box is made of 3 experiences.

The second experience is called:  
**Bodies of water**

For this experience you will need:

Planter.

Bowl.

Wooden torch holder.

Bean bags.

We also recommend having a towel at hand.

Torch.

This torch has multiple settings.

This torch has **a strobe setting.**

Please make sure your torch is clicked in the correct setting.

Click the button once to turn on the torch, then press lightly for the main beam. Press lightly again for low beam.

Press lightly for a 3<sup>rd</sup> time for the **strobe setting.** Press lightly for a final time for the **UV setting.**

Find "The Water" note and read it with your young person.

You can explore the texture of the note or the packaging material.

You can scan the QR codes to watch explainer videos and accompanying sensory films.

You can do this experience at the table, on the floor, on your tray or even while lying on the sofa looking up at the ceiling.

Put a towel or waterproof tablecloth down.

Fill the bowl with water. You can experiment with different temperatures of water.

Place the wooden torch holder inside the centre of the planter.

Around the wooden torch holder, place the beanbags to add extra weight to the planter.

Turn on the torch and place it pointing upwards in the wooden torch holder.

Place the bowl of water on top of the planter.

You can splash and ripple the water.

Explore the water temperature and how it feels on your skin.

You can explore with water and light in different ways. You can take the bowl and torch, moving it freely to your convenience.

Enjoy the patterns the water makes  
on the ceiling, walls, even yourself!
