

A World Beneath Us

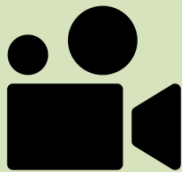

What happens next?

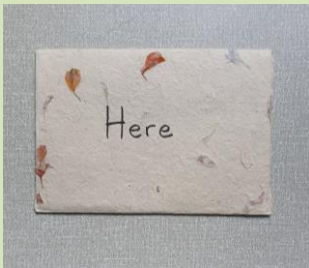

A World Beneath Us is a sensory show made by Oily Cart that is sent to family's homes.

It's made of a sensory **box** and

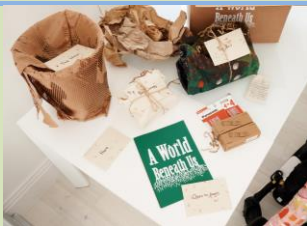

a sensory **film**.

Look at the bottom of your box for the final note that reads "Here"
Read it with your young person

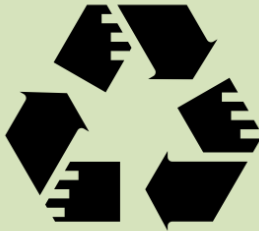

You can explore the texture of the note.

... A World Beneath Us has made its journey to your home. It can live in your eco-system with you.

A World Beneath Us is yours. You can go through the experiences as many times as you want, and in whatever order you like.

You can reuse some of the box items once you are finished. Check the resource in the Guidance Booklet for more information.

If you have questions, you can email oilies@oilycart.org.uk or our Access and Wellbeing Officer Maka access@oilycart.org.uk
